Dear Commissioner Welsh:

1. To establish rules and regulations and to create a single drilling and production unit for each reservoir for the exploration for and production of gas and condensate, to be designated Y-2 RD SUA, Y-2 RE SUA and Y-2 RF SUA;

2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units, with each tract sharing in unit production on a surface acreage basis of participation;
3. To designate The Wiser Oil Company as the unit operator for each of the proposed units, as may be appropriate;
4. To designate a unit well for each of the proposed units, as may be appropriate;
5. To provide that the Commissioner of Conservation should be authorized to reclassify each of the reservoirs by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and,
6. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Y-2 Zone in the DeQuincy Field, Calcasieu Parish, Louisiana, was previously defined in Office of Conservation Order No. 195-B-3, effective August 17, 2004, and is hereby further defined as being that gas and condensate bearing zone encountered between the depths of 9,750 feet and 10,580 feet, electrical log measurements, in the Kerr-McGee Temple - Inland 2 No. 1 Well, located in Section 2, Township 8 South, Range 11 West, Calcasieu Parish, Louisiana.

Pursuant to Rule 8 of the Rules of Procedure, the Commissioner of Conservation has waived the pre-application notice requirement. **A conference to discuss the proposed application is hereby scheduled for Thursday, March 17, 2005 at 10:30 a.m. at the Onebane Law Firm, 102 Versailles Blvd., Suite 600, Lafayette, LA 70501 (Phone: 337-237-2660).**
